Hello Jenny,

I hope you are well. I have attached the EPA Morocco study tour proposal concept note that you requested after review by some of our EPA colleagues from the regions.

We realize that the proposal is somewhat ambitious but we wanted to include more ideas for possibilities as opposed to less. The budget is also an estimate on the higher side to provide a sense of what the costs could be.

Please keep in mind that these are proposed ideas and this is a living document. We are open to feedback and adjustments based on available resources through your contract.

Please contact me if you would like to discuss this concept note or have any questions.

Thanks.
